GRATITUDE APPOINTS WOMAN P.M.

By United Press.

Chapin, Christ, Tex., June 7.—Gratitude—has been the subject of an old political adage—is the reason why Chapin Christ today has a woman postmaster, the only woman holding a first class postmaster's commission in the United States.

She is Mrs. Georgia Welch. Back of her appointment is a political tragedy.

A few years ago her husband, Judge Stanley Welch, working in the cause of Congressman Garner, went to Rio Grande City, Tex., to see that the election laws were obeyed. There he fell before an assassin's bullet. Congressman Garner won.

And he didn't forget the lease man who'd given up his life in the interest of clean politics and a fair deal for Garner.

That's why Mrs. Welch today is dealing out mail at \$3000 a year. Gratitude—yes, it will prevail.

Other southern states are involved. It is said, and alleged frauds against the government are said to amount to \$2,000,000 annually for a period of ten years.

ELECTION IN PORTLAND.

By United Press.

Portland, Ore., June 7.—Though two commissioners and one auditor were the only officers to be chosen at today's election in Portland it probably will be tomorrow before the complete returns are tabulated, owing to the numerous referendum measures put before the voters. Comparatively little interest was aroused in the election of municipal officials. A Sunday closing ordinance and a measure to regulate jitney and auto buses were among the questions submitted to the voters for final decision.

ONE OF FARRAGUT'S SHIPS FOR SALE AS JUNK.

By United Press.

Washington, D. C., June 7.—Another old ship that has made history for the United States navy, is about to be junked because it has outlived the days of its usefulness. At the navy department today bids were opened for the sale of the old sailing ship Portsmouth which is now tied up at the Norfolk navy yard. The Portsmouth was one of the vessels of Farragut's fleet at New Orleans. Its last active service was as a training ship for the New Jersey naval militia.

TODAY'S ODDEST STORY.
By United Press.
Denver, June 7.—There's really no danger of the United States and Japan going to war. John Sagers, a Jap, living at 1327 Humboldt street Denver, writing to his daily paper said, after paying his respects to the "bull dogs" of Europe: "U. S. President Woodrow Wilson is my ideal gentleman. I'm very glad U. S. got again the good leader of the Lincoln type in recent critical age. "I'm earnestly over desired U. S. and Japan will understand each other. And I'm especially aimed to investigate America and introduce the best quality to Japan. Hoping for your prosperity, yours truly."

VEILED PROPHETS MEET.

Duffalo, N. The order is a fraternal organization with a membership of about 25,000, largely in New York, Pennsylvania and neighboring states.

For Acid-Proofing Concrete Pipe. Patent rights have recently been awarded in Germany to a process for rendering concrete pipes acid-proof. The method consists of coating the interior of the tubing with asphalt, a thing which has previously been attempted but not with satisfactory results for the reason that the material could not be made to adhere permanently. In the new process a certain quantity of asphalt is mixed with the concrete before the pipe is molded. When the cast has been made and the tube dried, the interior is sand-blasted so that the particles of asphalt imbedded in the concrete are held bare. When hot asphalt is subsequently coated over the inner wall of the pipe it immediately combines with the asphalt particles in the concrete, which serve to securely anchor it in place. There has been much demand for tubing of this kind in industries in which large quantities of materials containing acids must be conveyed through pipe lines.—Popular Mechanics.

War Talk

After reading the reports of the misery, brutality and suffering in the European war zone, we are inclined to believe Sherman was right in his famous saying regarding war.

A retrospective view of a life full of neglected investment opportunities; handling of and earning large amounts of money, with no laying aside for investments that will take care of the rainy day of life; may also recall Sherman's remark.
